

**Ensham**  
R E S O U R C E S

## **MEDIUM TERM PLANNING SPECIALIST**

### **Open Cut Coal Mine**

#### **The Company**

Ensham Resources is an independently owned coal mine 40km east of Emerald in the Bowen Basin. Four draglines are the core of the open cut operation which produces over 7 million tonnes of thermal coal per annum. An underground operation will be constructed in the near future.

Our aim is to provide a safe workplace with a good work / life balance and a positive atmosphere, where your contribution is appreciated.

#### **The Job**

- reports to the Manager Technical Services
- requires the development of practical monthly rolling 3 year re-forecasts of mining physicals, equipment hours and coal quality
- develops the annual budget mining physicals, equipment hours and coal quality expectations for financial modeling in XERAS
- develops 3 year dump plans, trucking strategies and other value adding projects relevant within a 3 year time frame
- supports the Short Term Planning Superintendent in 16 week Planning
- requires monitoring and reconciliation of schedules to enable continuous improvement

#### **The Roster**

- Monday to Friday
- may require additional hours determined by operational requirements
- your permanent residence must be in the Emerald district

#### **The Person**

To secure this position you will need

- a commitment to safe work practices
- tertiary qualifications in a mining or mathematics related discipline
- 3 years mining/graduate experience in an open cut operation
- strong planning and analytical skills
- able to operate within a team
- computer skills – Microsoft, Vulcan, XPAC preferred
